Job Summary

The University of Colorado Boulder Museum of Natural History invites applications for an **Invertebrate Zoology Collections Manager position!** We seek an individual with interests in non-insect invertebrates to guide the continued growth and management of the physical collections and associated resources including archives and paper records, databases, images, and genomic resources. The collections manager will work with the Curator of Invertebrate Zoology to develop policy and procedures, grow the collection, write grant proposals, participate in informal and formal teaching and training, assist with shared administrative duties, and help develop and implement a long-term collections strategy consistent with American Association of Museums accreditation requirements, standards, and the best methodologies.

The University of Colorado Boulder is committed to building a culturally diverse community of faculty, staff, and students dedicated to contributing to an inclusive campus environment. We are an Equal Opportunity employer, including veterans and individuals with disabilities.

Who We Are

Apply Now Share

academic training for graduate students in Museum and Field Studies; build, conserve, and interpret research collections; and offer exhibits and educational programs for the University and the public.

What Your Key Responsibilities Will Be

Curation and Collections Administration:

Specimen Curation and Care

- Manages daily curatorial needs of the collections, including specimen preparation and processing, identification, cataloging, housing, and conservation in collaboration with the section Curator.
- Processes collections transactions (accession, loans, and deaccessions), ensuring compliance with local, state, federal, and international laws.
- Coordinates environmental monitoring and integrated pest management for collections preservation.
- Prepares documentation, arranges shipping and insurance, and packs objects for loans.
- Monitors environmental, health, and safety conditions in collections and lab areas.
- Responds to emergency situations that threaten the collections, e.g., protecting specimens, documenting nature and extent of damage, working with facilities management for proper cleanup actions, and facilitating conservation of specimens following an emergency when needed.
- Processes collections use requests and facilitates research access (e.g. research visits, destructive sampling, image rights).
- Maintains accurate collection inventories.
- Prepares collection objects and data for exhibition.
- Collects specimens when necessary to expand and strengthen the scope of the collections in objectives agreed upon with the section Curator.
- Maintains section library.
- Serves as or works with building proctors to assure the facilities are sufficient for protecting specimens.
- Possesses expert knowledge in the care and management of museum collections as well as discipline-specific knowledge relating to the collections overseen.

Data Management

Apply Now Share

materials are accompanied by legal documentation, such as signed deeds of gift, all relevant permits, and provenance documentation).
- Manages state and federal permits/licenses pertaining to specimen holdings, collecting activities, and specimen transport, including correspondence and required reporting to relevant regulatory agencies.
- Designs, manages, and maintains the computerized collections management system in collaboration with the section Curator'.
- Migration of existing digitized collections data from older databases into modern ones and mobilize collections data.
- Manages repository agreements with state and federal agencies.
- Prepares deaccessions for review by the Curator and then Collections Committee.
- Maintains object/specimen documentation to archival and community data standards.
- Manages digitization projects, digital asset archiving, and digital asset metadata preservation.

Policy Development

- Develops, updates, and implements section policies and procedures in collaboration with the section Curator.
- Develops project-specific protocols and workflows for section staff.

Planning

- Assesses short- and long-term goals and collaborates to plan strategically for the collections in coordination with Curator.
- Works with University Risk Management to ensure proper coverage of collection under Special Collections Insurance Policy.
- Writes, updates, and implements emergency preparedness plans for collections.
- Oversees section budget and constructs short-term and long-term fiscal plans for the section with input from Curator.
- Solicits external funds for the improvement of collections through grant writing with input for the section Curator.
- Performs grant administration, including management of grant budgets and writing and submission of interim and final reports for grant-funded projects.
- Prepares annual reports as necessary.
- Inventories and orders supplies and equipment for the section.

Supervision

Apply Now Share

- Supervise undergraduate work-study, hourly students, and volunteers.
- Supervise professional research assistants and contract staff, as necessary.
- Supervise visiting researchers using collections.
- Works with Teaching Assistants using collections for lab-based courses to ensure proper care and specimen handling by students.

Service

- Hosts visitors and conducts tours of the collections as appropriate.
- Responds to information inquiries.
- Provides specimen identifications for the general public.
- Serves as a liaison with university courses, K-12 schools, and other groups.
- Assists Public Section with label copy and specimen preparation as necessary.
- Serves on Museum and University committees.
- May participate in scholarly activity outside the University and by attending professional meetings and serving on boards and/or committees.
- May review manuscripts in the individual's area of expertise.
- May participate in grant review committees.

Education

- Serves as primary professional mentor for Museum and Field Studies and cognate graduate students.
- Gives guest lectures, demonstrations, and tours to classes, students, and community members.
- Gives public talks and/or outreach presentations.
- Provides informal education programming and curricula for K-12 school groups.
- May teach and/or assist Curator with classes including museum practica and independent study hours. Teaching responsibilities must be approved by the Museum Director and the Curator and duties must not conflict with the collections management obligations of the Section.
- May serve on graduate student committees by requesting a special faculty appointment from the Graduate School and with Curator approval.

Research

- When applicable, conduct research in a manner that supports the general mission of the Museum as well as that of the Section. Research time should be negotiated with the Curator and should not conflict with the collections management
