California BOTANIC GARDEN

Position Title	Herbarium Collections Manager
Status	Full-time (40 hours / week), hourly position
Reports to	Herbarium Curator
Compensation Range	$28 - $30/hour, depending on qualifications and experience

Position Summary:

The Herbarium Collections Manager works closely with the Herbarium Curator, curatorial staff, volunteers, and graduate students in the management of the herbarium. Responsibilities include training and supervision of volunteers in specimen preparation; oversight and coordination of integrated pest management; processing of loans, gifts, and exchanges; record keeping associated with specimen transactions and accessioning; oversight of digitization efforts and management of the herbarium's specimen database; and specimen filing.

Specific Duties and Responsibilities:

- Assists Curator in the management of day-to-day operations, including specimen preparation, processing, storage, and preservation.
- Trains and supervises volunteers in specimen preparation, including mounting, specimen repairs, and digitization.
- Assists with recruitment, training, and supervision of junior staff, curatorial interns, and graduate research assistants.
- Oversees and implements integrated pest management protocols, including coordination and supervision of quarterly inspections and preparation of associated reports.
- Processes incoming and outgoing shipments of specimens for loan, gift, and exchange.
- Maintains records of specimen transactions and accessioning using herbarium's specimen management system.
- Assists Curator with oversight and management of herbarium's digitization efforts, including data transcription, image capture and post-processing, georeferencing, and quality control.
- Assists with the management of the herbarium's database (Symbiota), including quality control of and nomenclatural updates to specimen records.
- Assists Curator with updates to herbarium protocols and workflow implementation.
- Assists with filing and organization of specimens in the main collection.
- Assists Curator with proposal preparation, plans, and implementation of projects to be undertaken with external support.
- Assists Curator with the coordination and execution of special curatorial projects.
- Prepares reports and other documents as directed.
- Provides herbarium orientation and assistance to visiting researchers and students.
- Responds to information inquiries and requests.
- Participates in herbarium and Garden outreach activities, including tours and other events.
- Assists with other aspects of herbarium and Garden operations as assigned.

California BOTANIC GARDEN

Education/Qualifications:

- Bachelor's degree in botany or related field required, Master's degree preferred.
- Minimum three years of herbarium curatorial experience; demonstrated experience in the care and management of collections, including specimen preparation, processing transactions (loans, gifts, and exchange), digitization protocols, and best practices in integrated pest management.
- Experience with collection databases and transaction management systems required; experience with using and maintaining Symbiota-based databases and web portals or parallel software programs preferred.
- Demonstrated understanding of basic taxonomic principles and characteristics of major plants families; working knowledge of California flora highly desirable.
- Strong oral and written communication skills.
- Excellent people skills are required; supervisory experience preferred.
- Ability to work independently and as a team.
- Excellent organizational skills and an eye for detail.
- Ability to lift and carry up to 25 lbs.
