Life Sciences Collections Manager, Idaho Museum of Natural History (3702)

Posting Number: req870
Working 12 months per year
Non-classified Staff
Office for Research
Pocatello - Main

Primary Purpose

The Idaho Museum of Natural History is seeking a motivated, organized, detail-oriented individual to join our staff as the Life Sciences Collections Manager, with an emphasis in the Ray J Davis Herbarium. This key team member oversees the day-to-day operations of the herbarium (ca. 80,000 specimens) and other, smaller (mammal, bird, herpetology, fish, insect) biodiversity collections. Responsibilities include specimen preparation, maintenance and organization, record keeping and digitization, monitoring specimen inflow/outflow, and facilitating collection use by students, researchers and the public. The Collections Manager participates in both internal and external Museum activities and outreach events, such as public programs, fundraising efforts, and exhibit planning. In addition, the Collections Manager trains and leads a team of student and volunteer assistants in specimen curation, digitization and outreach projects. The Collections Manager works with the Life Sciences Division Curator and Affiliate Curators to plan and implement division goals, priorities, and programs.

Key Responsibilities

1. Oversee the day-to-day management, preservation, and accessibility of the biodiversity collections.
2. Work cooperatively with other Collection Managers and museum staff to achieve the highest level of collection care and productivity.
3. Hire, train, and supervise collections personnel, including students and volunteers, to carry out tasks such as mounting, filing, imaging, databasing, and georeferencing specimens.
4. Process all incoming and outgoing specimens including, donations, exchanges, loans, and gifts.
5. Organize and collaborate in field collection efforts.
6. Provide taxonomic identifications of specimens and assess their associated data for accuracy and historical context, including promoting continuous upgrades to specimen identifications and nomenclature.
7. Facilitate visits by researchers, students and the public using the collections.
8. Participate in education and other public program activities of the Museum including, but not limited to, tours for the public, training volunteers, Life Sciences education programs and exhibits.
9. Coordinate with development staff on fundraising opportunities; help write collections-improvement grants for curation, accessibility, and preservation of Life Sciences collections.
10. Available to work some evenings and weekends.
11. Perform other duties related to Life Sciences collections as assigned.
12. Special requirement; ability to bend, lift, carry and climb.

Minimum Qualifications

Bachelors degree in Biology, or related life science
Demonstrated experience working with collections

Demonstrated experience in plant identification, taxonomy, or field botany

Preferred Qualifications

MS or PhD in Biology, or related life science
Experience in plants from the western United States
Previous experience in collections management
Previous experience in fundraising
Previous experience in education and outreach

Please submit the following documents with your application:
CV/Resume, Cover Letter and a list of three (3) professional references with contact information.

Position will remain open until filled. Salary will be commensurate with education and experience. Includes a competitive benefits package. Offers of employment may be conditional pending successful completion of a background investigation.

About Idaho State University

Idaho State University (ISU) combines exceptional academics amidst the grand natural beauty of the West. ISU faculty and students are leading the way in cutting-edge research and innovative solutions in the areas of energy, health professions, nuclear research, teaching, humanities, engineering, performing and visual arts, technology, biological sciences, pharmacy, and business. ISU is the state's designated lead institution in health professions and medical education.

Idaho State University, a Carnegie-classified doctoral research and teaching institution founded in 1901, serves a diverse population by attracting students from around the world to its Idaho campuses. At the main campus in Pocatello, and at locations in Meridian, Idaho Falls, and Twin Falls, ISU offers access to high-quality education in more than 280 programs. Over 12,000 students attend ISU, receiving education and training in those programs. To read more, visit: **Idaho State University Home**

Idaho State University is an equal opportunity/affirmative action employer. We have an institution-wide commitment to inclusion and diversity and encourage all qualified individuals to apply. Veterans' preference.
Upon request, reasonable accommodations in the application process will be provided to individuals with disabilities.

ISU PUBLIC SAFETY JEANNE CLERY ANNUAL SECURITY AND FIRE SAFETY REPORT
Idaho State University's Jeanne Clery report, federally required reporting, provides crime, arrest and fire statistics for the previous three years that occurred on campus, in certain off-campus buildings owned or controlled by Idaho State University; and on public property within, or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies about alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, personal practices, disciplinary procedures, fire safety and other matters. This report can be accessed on the following website: ISU Clery Report
